

Dear Patient:

The following is a list of healthcare providers that provide ancillary services to the patients of the El Centro Regional Medical Center and are separately billed by the individual providers to the patient. Their services are not included in the hospital bill and they may or may not be listed as part of your particular PPO or HMO contract. For further information on any provider, please contact that provider directly.

CARDIOPULMONARY SERVICES

Cardiopulmonary services include the performance of EKGs, EEGs, echocardiograms, exercise stress tests, pharmacological stress tests and pulmonary function tests performed at this hospital. These tests are read by individual private physicians who bill the patient for their professional services. The hospital bills for the technical component of the test only. Physicians will bill for the diagnostic portion or interpretation of tests.

We appreciate your patronage!
